The Powers Group

Growth & Ventures

Founder & CEO | The Powers Group

EXECUTIVE OVERVIEW

Gordon E. Powers is the Founder and CEO of The Powers Group, a Hawai‘i-based, veteran-owned growth and ventures company. TPG develops opportunities and creates value to help individuals and organizations grow across commercial, government, institutional, and community markets. From individual requirements to complex, integrated efforts, the company provides products, services, expertise, and resources to reduce risk, modernize, and grow.

Gordon brings more than 30 years of leadership, operational, and business experience, including a 27-year military career spanning enlisted and commissioned service. His experience ranged from tactical units and combat deployments to joint and strategic assignments, with responsibilities across strategy and operations, capability development, force design, training and education, technology, intelligence, diplomacy, and defense modernization.

His career includes service with the 82nd Airborne Division, U.S. Strategic Command, U.S. Pacific Fleet, and U.S. Army Pacific, as well as work across the Department of Defense, intelligence community, and interagency. He has supported joint, interagency, intergovernmental, and multinational efforts; worked with NATO, the United Nations, industry, academia, and U.S. allies and partners; and advised senior U.S. and foreign government leaders. His Indo-Pacific experience includes assignments in Hawai‘i and South Korea and extensive engagement throughout the region.

TPG represents the culmination of those experiences and a belief that many of the hardest problems facing organizations are not caused by a lack of ideas, talent, or resources, but by the difficulty of bringing them together effectively. Gordon brings those perspectives together at TPG to transform good ideas into delivered solutions.

Redefine What’s Possible
